Indiana Republicans Thus Accept McKinley's Porto Rican Tariff.

NOT PLEASED, BUT RESIGNED.

State Convention Perfunctorily Indorses the National Administration and Declares for the President's Re-election.

Indianapolis, Ind., April 25.-The session of the Republican State Convention prellini-

That also, he said, States to Porto Rico. That 2180, he said, would result in piscing burdens far beyond the capacity of the Porto Ricans to meet and discharge them.

Chairman Hanly's Speech.

Like an avalanche the borde of delegates to the State Republican Convention swept into Temlinson Hall at 2 p. m., and for a time there was pandemonium of enthusiasm. When Chairman Herniey of the Republican State Central Committee shally succeeded in securing order, he convened the meeting with a brief speech.

with a brief speech.

After the report of the Committee on Temporary Organization had been adopted, Chairman J. Frank Henly of Lefavette was introduced. Mr. Hanly said, in part:

"The Republican party, conscious of its duties in the premises, is seriously considering whether we ought not to choose centralization of governmental authority rather than submit to the abuse and perils incident tralization of governmental authority rather than submit to the abuse and perils incident to centralized industrial and commercial power. This means a constitutional amendment giving the Congress full power to deal with the entire trust question. As it is neither the Federal Government nor that of the individual case has adequate antiority to legislate upon the subject. This question is being considered with the fairness, candor and patriotism which have always characterized the actions of the Republican party. Cannot Undo What Has Been Deep 1 terized the actions of the Republican party. Cannot Indo What Has Been Done.

"By war and by treaty we have acquired territory in the Islands of the sen. It is now too late to discuss the propriety of expansion. We have aircady expanded. The opportunity of the anti-expansionist is past. He has had his day in court and cannot now be heard. It will be useless for the Kansas City convention to ask the American people for an injunction. They will not undertake to enjoin an act that is already consummated. We will not abandon the solution of the problem because it is difficuit, nor will we refuse to bear our share of the white man's burden' because it is heavy. The people of the Republic can be trusted. "Members of the Republican party may often differ upon the details of legislation affecting this question, but upon the great fundamental principles which underlie it all—never—upon these our heart and our mind are one.

"Out of the discussion occasioned by their differences upon the Porto Rican measure there finally came the ealm, conservative, patriotic and just jusigment of the majority, which is now the law. The moment it became the law, differences ended, and the Democrat who consoles himself with the belief that this act of the administration will not have the indorsement of Indiana Republicans does not know us. Let him stand still and watch and he shail see the salvation of the Lord."

The report of the Committee on Credentials was then adopted, after which the platform and resolutions were presented. The platform adopted is as follows:

"We emphatically indorse the wise and patriotic administration of President McKinley. In the whole history of this country there has been no period so distinctively marked by prosperity and progress as that of this splendid Republican administration. It Turnishes a most practical flustration of the difference between a party of capacity and one of incapacity.

Under its policies the country has passed from extreme degression to unparalleled prosperity. Party piedges have been acrupulously kept; the dignity and bonor of the nation maintained everywhere; the dangers and perplexities of a great foreign war successfully met; the glory Indiana Platform.

Bolt of Sangamon County Cullom Men Is Roundly Scored.

Springfield, Ill., April 25.-In reply to the circular issued by the Cullom Republicans of Sangamon County, in defense of their independent County Convention, the Tan-

independent County Convention, the Tanner people have prepared a circular, giving their side of the case.

The document is pungent. Its opening declaration is to the effect that the Cullom men belited because two of the Tanner delegates had refused a \$200 bribe to vote for Pavid T. Lutter as chairman of the convention. When this plan failed, according to the Tanner crowd, the Cullom managers deluded their followers into boiling on the charge that unfairness was being practiced against them in throwing out contesting Cullom delegations.

The circular declares that the agreement to boil was made in advance of the convention it is asserted that this agreement was made because "Ley dared not confess their weakness to Sheiby M. Cullom or admit that the Repuellcan party had re-

fees their weathess to see you a challen or admit that the Republican party had renounced their leaders in Sangamon County. They botted because Shelby M. Cullom did not dare manfully to accept defeat in his own county, for fear of the impression it would have throughout the State.

Finally, after detailing charges of sharp practice, the circular declares that the Culiom managers could not have been tricked because they were too cumming. Al-parently, this argument is considered stronger than the storles of using money

Delegation of National Association Visits Washington.

REPUBLIC SPECIAL. Washington, April 25.-A large delegation of brewers, representing the United States Brewers' Association, appeared before the Ways and Means Committee this morning Ways and Means Committee this morning and made a strong argument in favor of the reduction of the tax on beer.

They represented that while they had submitted uncomplainingly to an additional tax of \$\mathbb{S}\$ iper barrel on their product, when the mosey was necessary for carrying on the war, they thought now that the surplus was rapidly pilling up in the Treasury, it was time the tax should be taken off. With beer selling at \$\mathbb{S}\$ per barrel it was unfair, they said, for the Government to take two-fifths as its part.

The delegation was introduced by Representative Ruppert of New York, who arsentative Ruppert of New York, who ar

termined to maintain the dignify and honor of the nation at any cost, at any hazard; and they knew that the Congress of the United States could not, and would not, fall to respond to the call of patriotism."

Representative Rartholdt to-day received a letter from Adolphus Busch of St. Louis, lodging a vigorous protest against a continuance of the war tax. Mr. Busch contends that the Treasury is overflowing, that the cause of the tax—war—has been re-

the Senatorial Election Bill.

REPUBLIC SPECIAL.
Washington, April 25.—On April 13 these dispatches stated that "the House, by a proposing a constitutional amendment to provide for the election of United States

is due to Representative Loyd of the First Missouri District."

This dispatch stated the facts. Mr. Lloyd introduced the resolution, and with very slight modifications by the committee to which it was referred, it was reported back to the House. The statements in The Republic are questioned by some gentlemen residing in Mr. Lloyd's district, who assert that Judge Rucker of the Second District was the author of the resolution, and that Mr. Lloyd has tried to secure under credit for the passage of a measure with which he had little or nothing to do. A controversy has arisen over the matter, and as Mr. Lloyd is unable to give it personal attention, being almost constantly at the bedside of his wife and children, who are seriously ill, Judge Rucker to-day sent the following dispatch to a resident of Mr. Lloyd's district. 't ought to answer all the namerous inquiries made about the matter. "Washington, April 25, 1902.—Doctor R. J. Mr. Lloyd deserves all the credit given him for valuable assistance rendered in securing the passage of the resolution.

It might be added that Mr. Lloyd had nothing to do, by suggestion or otherwise, with the mention of his name in consection with the matter. ## THE AGE OF INQUIRY.

The present has been described as pre-eminently the century of inquiry.

The constant and universal question that is echoed from every side, is "Why?" Ask any of your friends why they prefer Van Houten's Cocoa to any other, and one will immediately tell you "it has the highest nutritive value;" another will reply "it is more easily dia gested and assimilated than other cocoas;" and a third will probably answer "it is perfect in flavor, and rich in healthy stimulating properties."

In reply to the question "Why?" The Lancet says:-"Van Houten's Cocoa yields a maximum proportion of the valuable food constituents of the bean." Why is it the best for children, for mothers, and for family use?

Because it is rich in that digestible Albumen which nourishes the body, and in the Phosphates which build up bones and tissues; because it repairs waste: and also because you can get out of it more strength and nourishment than out of any other.

Have you tried Van Houten's Eating Chocolate?
